A Prayer From Pastor Ruben

All knowing and all-powerful God, at this time of fear, uncertainty and isolation we pray for your healing touch in our lives. We pray for your hope and peace that can sustain us in this unprecedented time.

We pray for those that have passed around the world from this virus, as well as those who currently have the virus. For their families and for those that love them. We ask for your grace for their pain.

We pray for our leaders, medical personnel, scientists and first responders who are trying to do what is best in this frightening time. They are trying to help others while worrying about

their own families. Be with them and help them make the right decisions to bring an end to this crisis.

We pray for those who are worried financially, especially for those that live paycheck to paycheck. We ask that you protect the most vulnerable who can not support themselves.

Dear Lord, we turn to you who has gotten us through so much already. You are the great physician in whom we trust. We love you and praise you for what you will do and for the miracles we proclaim in your name.

Finally, we pray for the PAVE program, our students, our graduates, our staff and our board members. Help us to remember you are with all of us and we are not alone. We are all in this together!

In Jesus' name we pray, Amen!

Light The Way Gala 2020

Our LTW 2020 Gala was truly a success in all aspects. We extend our most sincere gratitude to those who were able to show their support whether in attendance or remotely. 100% of the donations and pledges from this event are going towards sustaining our program for the rest of the year. As we work to strategize our plans around the uncertainties of the current climate; we hope that you find comfort in knowing the youth of Portland, Jamaica are truly grateful and excited that you made the choice to invest in their lives.

**Out of many,
one people**
